SUBJECT Fonsteel Metals - Muskogee, OK			
SUMMARY OF COMMUNICATION <p> I got a call from Jerry Block of OURB regarding our inspection at Fonsteel in Muskogee, OK. I got out the file and found that we hadn't received the inspection report yet. The analytical results are to be completed by Houston on August 15 for soil samples. I didn't know if monitor wells were sampled. I told him we would send report & sample results as soon as they were received. </p> <p> He said OURB was going to force Fonsteel to put in monitor wells around new impoundments. He said they couldn't do anything about old sludge pits because of the "grandfather clause". He hoped we might be able to do something about controlling them. He is going to site the 3rd week in August to check on </p>			
CONCLUSIONS, ACTION TAKEN OR REQUIRED reports of a manhole where sludge may be discharged to flow to the river.
